Our main business is the production of heating devices on solid, liquid and gaseous fuels, electric cooker, and a combination of solid-fuel-electricity-gas and electricity. Products of "ALFA-PLAM" are primarily intended for households.

According to the quantity of production, placement and quality, we are a leading manufacturer of heating devices in Serbia and Southeast Europe, and are among the top 5 producers in Europe.

Today, production realized in 5 technical and technological unit, according to product groups, such as:

- Solid fuel furnaces and stoves;
- Fireplaces;
- Gas furnaces;
- Stoves, furnaces and fireplaces for floor heating;
- Electric and combined cookers

Our total annual production is more than 150.000 units. The range of production is permanently expanding, according to the needs of the market, and all in order to improve the quality of production, we are introducing new technologies that guarantee the quality that is confirmed by ISO standard.

All our products have specific domestic and international certificates, which fully meet the strict requirements for the placement on the EU market. ALFA-PLAM sells its products on domestic market (40%) and in European markets (60%). The main foreign markets are the ex-Yu republics (Bosnia and Herzegovina, Macedonia, Montenegro, Slovenia and Croatia), Germany, Italy, Austria and Poland, and others.

1.6. COMPANY BACKGROUND

The beginnings of creation of the company are related to in 1948 when he created a company that is in the beginning of the rule sheet metal products. History ALFA - PLAMA and development over the years is shown in the following table:

- 1948.- City craft-service company „Metalac“ was founded in Vranje. It was consisted of locksmith, blacksmith, electricians, carpenter, wheelwright and sheet metal workshop. Company produced pots, water buckets, pan and furnaces called "drummers," as well as products made according to clients' wishes.
- 1950. – „Metalac“ employes 58 people.

-
- 1959. – Company „Metalac“ has launched a galvanizing plant . Plant employes four new workers, who put black sheet metal buckets in chemicals and then in zinc which was heated in large cauldron by oil.
 - 1960. – Comapny plans production and galvanization of 100.000 buckets.
 - 1962. – Metal Packging factory was built In the industrial district of Vranje and it changes its production program in consumer goods. Name of the factory is Technical devices Industry “Alfa – Vranje” and it employs 87 workers.
 - 1964. – “Alfa – Vranje” wins gas furnace production “Feniks 140”, and plans other consumer goods production (electric dryer, wash machine, furniture and locksmith). Factory employs 300 workers. “Feniks 15000”, gas furnace for floor heating, was exposed to Belgrade Techniques Fair.
 - 1965. – "Metalac" after 16 years of work in bad conditions, gets adequate space in an industrial area of Vranje, in addition to "Alpha". The company specializes in the execution of all trades and metal assembly works in construction.
 - 1967. – Established the business and technical cooperation between the " Alpha " and the French Fabricant Henry puller, which resulted in the production of furnace oil " Alfa Potez " in " Alfie ," and the Potezovoj license
 - 1968. – The " Alfie " was put into operation a new paint shop .
 - 1969. – Achieved record annual production (in October produced 100,000 electrical " Alfa - Potez " in that year). Contracted export 10,000 furnace oil " Alfa - Potez " in Hungary. Thus, a large amount of time to bake one manufacturer of heaters in Yugoslavia , not once exported . The factory employs 520 workers .
 - 1971. – Factory " Alfa Vranje " acquired crane for loads up to 8 tons for unloading plates . Until then, this job workers . With a company specialized in the manufacture of stoves , gas, solid and liquid fuels " Efel " from Belgium signed an agreement on cooperation which envisages exporting 30,000 fireplaces - furnace oil to Belgium .
 - Developed a cooperation between " Metalca " which has 200 employees and produces stoves for solid and liquid fuels and " Alpha " which with 760 employees produces super modern furnace oil . These two companies share a wire fence .
 - 1973. – " Alfa " winning production of solid fuel stove and plans in the first series production of 6,000 stoves. In addition to the stove , won the production of spring mattresses for Furniture factory " Simpo" production and sink .
 - 1975. – Noted that " Alpha" operating at a loss , and that the losses stemmed not only from the previous year, but in previous years . Bad business caused by the global energy crisis and rising raw material prices , the inability istovrenemu " Alpha " to reorient the program . Despite declining sales , starting in 1971. Was produced enormous quantities of products that are in stock. Reclamation program , provides a reference work on employee unpaid leave for a new systematization of 400 employees (200 less than the time employed) , as well as payment of minimum wages to the crisis .
 - 1977. – After several years of unfavorable business , " Alfa " ended the year with no losses .
 - 1978. – " Alfa " winning production of gas stoves .
 - 1980. - " Alfa " winning production of gas stoves . Industry unites technical equipment " Alfa " and OOUR to produce consumer goods " Metalplam " (from the band " Metalca ") , an organization working in Metal industry Vranje " MIV " Vranje . New work organization has 873 employees. Produced 230,000 heaters . Association of manufacturing plants in the firm "Alfa-Metalac"
-

-
- 1981. - Metal Industry Vranje became part SOUR " Gorenje " from Velenje (Slovenia).
 - 1984. - Contracted export 100,000 stoves using liquid fuel for Algeria .
 - 1989. - Change the name of "Alfa Plam" and a new company logo.
 - 1990. - Changed company name to " Alfa Plam ".
 - 1994. - Half of the production is sold in the exporting countries (Slovenia, Macedonia , Bulgaria and Albania) .
 - 1997. - Executed overhaul emajlirnice and installed modern equipment for baking enamels (manufactured by German company WGT) . Investments in the amount of DM 500,000 was realized from its own funds .
 - 1998. - The introduction of ISO 9001 quality system. Began manufacturing electric cooker with ceramic hob, a system of quality ISO 9001 and began the process of ownership transformation of social capital. The company has 1,100 employees .
 - 2000. - In the first round of a transformation of ownership , 1,544 employees, former employees and retirees of the company , became the owner of 70 % of " Alfa Plam " and a right of priority in the purchase of the remaining 30 % stake . The company is registered as a corporation is .

1.8. BASIS OF PREPARATION OF FINANCIAL STATEMENTS

The financial statements have been prepared in accordance with the regulations of the Republic of Serbia based on the Law on Accounting and Auditing ("RS Official Gazette", no. 46/2006 and 111/2009), which provides the International Accounting Standards (IAS) and international Financial Reporting Standards (IFRS) as the basis for the preparation and presentation of financial statements.

Decision of the Minister of Finance of the Republic of Serbia (No. 401-00-1380/2010 - 16 of 25 October 2010) was produced translation of basic texts IAS or IFRS, as issued by the International Accounting Standards by 1 January 2009. year, as well as interpretations issued by the Committee for the interpretation of accounting standards by 1 January 2009. year. The Company is assessing the impact of changes to IAS and IFRS standards and interpretations on the financial statements. Amendments of existing IAS and IFRS standards and interpretations, replacing existing IAS new one, which came into effect from 1 January 2009. year, and the application of new interpretations became effective in 2010. , have not led to significant changes in accounting policies or material impact on the financial statements in the period of initial application. Despite the fact that many of these changes are not applicable to the Company, the Company's management does not express an explicit and unreserved statement of compliance with IAS financial statements and IFRS applicable to the periods presented in the accompanying financial statements.

The financial statements are prepared in accordance of historical cost concept and the going concern principle Society. The financial statements are presented in the format prescribed in the Regulations on the content and form of financial statements for companies, cooperatives, other legal entities and entrepreneurs ("Fig. Gazette of RS", no. 114/2006, 5/2007, 119/2008, 2 / 2010 and 101/2012), which differ from the presentation of certain amounts as required under IAS 1 "Presentation of Financial Statements". Because of that, these financial statements do not fully comply with IAS and MSF. According to the Law on Accounting and Auditing of financial statements include: balance sheet, income statement, cash flow statement, statement of changes in equity and notes to the financial statements and the statistical annex.

These financial statements are stated in thousands of RSD, unless otherwise is not indicated. RSD is the functional and official currency of the Company. All transactions in currencies other than the functional currency are treated as transactions in foreign currencies.

In the preparation of these financial statements company applied the policies od accounting described in Note 3, which are in conformity with the accounting and tax regulations of the Republic of Serbia.

1.9. OVERVIEW OF SIGNIFICANT ACCOUNTING POLICIES

1.9.1. Use of estimates

The preparation of the financial statements in accordance with IAS and IFRS and accounting regulations valid in Republic of Serbia requires the Company's management to make estimates and assumptions that affect the amounts reported in the financial statements and notes to financial statements.

These estimates and assumptions are based on information available at the balance sheet date. Actual results could be different from those estimates, whereby estimates are reviewed periodically.

The most significant estimates relate to the determination of impairment of financial and non-financial assets, recognition of deferred tax assets, the determination of provisions for legal disputes and defining the assumptions that are necessary for the actuarial calculation of employee benefits for retirement, and the same are disclosed in the respective accounting policies and / or notes to the financial statements.

1.9.2. Foreign currency translation and accounting treatment of foreign exchange differences and foreign currency clause

Items included in the financial statements of the Company valued by using the currency of the primary economic environment in which the company operates (the functional currency). The financial statements are stated in thousands of RSD, which is the functional and official currency the Company.

All assets and liabilities denominated in foreign currencies at the balance sheet date are translated into RSD at the official exchange rate foreign exchange of the National Bank of Serbia valid on that date. Business

transactions in foreign currencies during the year are translated into RSD at the official exchange rate of the National Bank of Serbia valid on the date of the transaction.

Positive and negative exchange rate arising from the translation of assets and liabilities denominated in foreign currencies and transactions during the year are recorded in the income statement as financial income or financial expenses.

Positive and negative effects of agreed clauses related with foreign receivables and liabilities incurred by applying the agreed rate, shall also be stated as financial income or financial expenses.

1.9.3. Comparative data

The comparative data represent the Company's financial statements for 2013. year, which were subject of revision by another auditor company– „MOORE STEPHENS Audit and Accounting“, Belgrade.

1.9.4. Revenues from regular operations

Sales revenue are included in the amount of invoiced realization, ie. the sale until the end of the accounting period, provided that it is created on that date debtor - creditor relationship and the invoice. Revenue is measured at the fair value of consideration received or receivable taking into account the amount of any trade discounts and volume rebates approve by the Company. The difference between the fair value and the nominal amount is recognized as interest income.

Income from sales is recognized when all conditions are satisfied:

- a) the Company has transferred to the buyer the significant risks and benefits from ownership;
- b) management of the Company does not hold or continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;
- c) when it is possible to reliably measure the amount of revenue;
- d) it is probable that the transaction will be accompanied with a flow of economic benefits to the Company and
- e) when the costs incurred or to be incurred in respect of the transaction can be measured reliably.

Revenues from services are recognized to the stage of completion at the balance sheet.

1.9.5. Operating expenses

The overall expenses from regular operations include: cost of goods sold, costs of materials, costs of salaries, benefits and other personnel expenses, costs, amortization and provisions, costs of production services, and intangible costs.

The basic elements and principles of expense recognition are:

- a) Expenses are recognized and stated when a decrease in future economic benefits related to a decrease in assets or increase in liabilities can be measured reliably;
- b) The charges are based on the direct link of expenses to revenues;
- c) When it is expected that the economic benefits will flow over several accounting periods and the association with income can only be broadly or indirectly determined, expenses are recognized on the basis of systematic and rational allocation;
- d) Expenses are recognized when an expenditure produces no future economic benefits or when, and to the extent that future economic benefits do not qualify, or cease to qualify for recognition in the balance sheet as an asset;
- e) Expenses are recognized in those cases where the liability is incurred without the recognition of assets.

Cost of goods sold wholesale is defined as the sales value of goods at the wholesale, minus the amount determined by the difference in price and calculated the VAT included in the value of goods sold at the wholesale.

Cost of goods sold at retail shall be in the amount of revenue from goods sold, net of the amount determined by the difference in price, and the amount calculated VAT, contained in goods sold at retail.

1.9.6. Borrowing costs

Borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are the part of the cost/price of the asset. Other borrowing costs are recognized as an expense.

1.9.7. Financial income and expenses

Financial income and expenses include income and expenses from interest (regardless of whether they are overdue and whether paid or added to the amount of receivable or liabilities at the balance sheet), income and losses from exchange differences, income and expenses from transactions with the parent, subsidiaries and other related parties, and other financial income and expenses.

Dividend income is recognized as income in the year the same approved for payment.

1.9.8. Profits and losses

Profits represent increases in economic benefits, including income which occurs on sale of fixed assets at values higher than their book value, unrealized profits on the sale of the securities market (in the case of the evaluation of securities by their market values) and profit which arise from increasing accounting value non current assets because stopping conditions for the reduction in their value.

Losses arising from the sale of assets at prices lower than their book value, on the disposal of non write off of fixed assets from claims which may be wholly or partially reimbursed by insurance companies and by applying the principle of decrease (Impairment of Assets).

1.9.9. Property, plant and equipment

Property, plant and equipment are tangible assets:

- that company hold for use in the production or supply of goods or services, for rental to others, or for administrative purposes;
- they are expected to be used during more than one period, and
- with a single purchase price at the time of acquisition exceeds the average gross earnings per employee, according to the latest data of the authority in charge of statistics.

Intangible assets consist of other intangible assets – software for computers.

Purchases of intangible assets during the year are recorded at cost. Cost represents the invoiced value plus any directly attributable expenses and the costs of bringing into use . Cost of intangible assets in own production are direct costs and indirect costs related to the investment.

After recognition as assets, property, plant and equipment they are stated at cost value or at cost value decuded for accumulated depreciation and total impairment losses.

At each balance sheet date the Company assesses whether there is any indication that the asset may be impaired. If any such indication exists , the Company estimates the amount of resources that can be recovered. If the recoverable amount of the asset is less than its carrying amount the carrying value is reduced to its recoverable amount and at the same time reduce the previously established revaluation reserve in respect of that asset. If you have not created the revaluation reserve in respect of assets whose value is diminished or are used for other purposes, the amount of the impairment loss is recognized in income statement.

If at the balance sheet date there are indications that the previously recognized impairment loss does not exist or is reduced , are evaluated recoverable amount of the asset. An impairment loss recognized in prior years is recognized as revenue, and the book value of the asset is increased to its recoverable amount.

Subsequent expenditure relating to an already recognized intangible assets, attributable to the carrying amount of the asset if it is probable that future economic benefits will be higher than originally estimated rate of return of the asset.

The Company recognizes in the carrying value of intangible assets , the cost of replacement of some parts of these items , at a time when costs are incurred and when they met the recognition criteria in IAS 38 - " Intangible assets" (paragraph 21) .

All other expenditure is recognized as an expense in the period in which it arises.

Intangible assets stop to be recognized in the balance sheet on disposal or when the asset is permanently withdrawn from use and from its disposal does not expect any future economic benefits.Gains or losses arising from the retirement or disposal is determined as the difference between the estimated net disposal proceeds and the carrying amount of the asset and are recognized as income or expense in the income statement.

1.9.10. Investment Property

Property, plant and equipment are tangible assets that:

- the Company holds for use in the production or supply of goods or services, for rental to others, or for administrative purposes;
- that are expected to be used during more than one accounting period;
- each with a purchase price at the time of acquisition is bigger than the average gross wage per employee in the Republic, according to the latest published data of the body in charge of statistics.

Purchase value / cost of property, plant and equipment is recognized as an asset if, and only if:

- It is probable that future economic benefits associated with the item will flow to the entity; and
- The purchase value / cost of the asset can be measured reliably.

Purchases of property, plant and equipment are initially recorded at cost value.

Cost value represents the invoiced amount plus any directly attributable costs of acquisition and the costs of bringing into use. Cost of that assets in self-directed are direct costs and indirect costs related to the investment. After being recognized as assets, property, plant and equipment are stated at cost value or cost of goods reduced for accumulated accrued depreciation and accumulated impairment losses.

At each balance sheet date the Company assesses whether there is any indication that the asset may be impaired. If any such indication exists, the Company estimates the amount of resources that can be recovered. If the recoverable amount of the asset is less than its carrying amount the carrying value is reduced to its recoverable amount and the impairment loss is recognized in income statement.

Subsequent expenditure relating to an already recognized for property, plant and equipment is attributed to the carrying amount of the asset if it is probable that future economic benefits will be higher than originally estimated rate of return of the asset and the purchase value / cost of subsequent expenditure can reliably utvrditi .

The Company recognizes in the book value of certain property, plant and equipment the cost of replacing some parts of these items , at a time when costs are incurred and when they met the recognition criteria in IAS 16 - "Property, Plant and Equipment " (paragraph 7) .

All other expenditure is recognized as an expense in the period in which it arises.

City land is stated separately from the value of the property at cost and subsequently evaluation is done in the same way and entered the property, plant and equipment.

Amortization of land is not performed.

Property, plant and equipment is eliminated from the balance sheet on disposal or when the asset is permanently withdrawn from use and from its disposal does not expect any future economic benefits.

Gains or losses arising from the retirement or disposal is determined as the difference between the estimated net inflow from sell and the carrying amount of the asset and they are recognized as income or expense in the income statement.

1.9.11. Investment property

Investment property is apartment that Company as owner held to earn rental income and not for use in the production or supply of goods or services or for administrative purposes or sale in the ordinary course of business.

Initial measurement of investment property carried at cost value or cost price. In the initial measurement, purchase costs are included in the cost value or cost price.

After initial recognition, investment property is measured at cost value or cost price which is reduced for total amount of corrections amortization.

1.9.12. Amortization

Calculation of amortization is performed from the beginning of the month following the month when were the asset is put into use.

Amortization is calculated on the proportional method, using rates which are determined based on the estimated useful life of the assets.

The basis for the calculation of amortization is cost of value.

Useful life and amortization rates are reviewed periodically and, if expectations are based on new estimates significantly different from the previous, calculation of amortization costs for the current and future periods are corrected.

Method of calculating amortization applied is reviewed periodically and there has been a significant change in the expected pattern in which economic benefits from these assets, the method is changed to reflect the changed method. When such a change is a method of calculating amortization is necessary, then it is accounted for as a change in accounting estimate and calculate amortization for the current and future periods are corrected.

The amortization rate for the principal classes of property and equipment are listed below:

Intangible assets	3-5 year	20,00 do 25,00%
Construction objects	40-50 year	2,00 do 2,50%
Production equipment	7-15 year	7,00 do 15,00%
Cars and trucks	10-14 year	10,00 do 15,50%
Office equipment	10-20 year	5,00 do 10,00%
Computer equipment	3-5 year	20,00 do 30,00%

Implemented rates of depreciation of intangible assets are as follows:

	2014.	2013.
Intangible assets	20%	20%

The calculation amortization for tax purposes is determined in accordance with the Law on Corporate Income Tax of the Republic of Serbia and the Regulations on the Classification of fixed assets into groups and the method of determining depreciation for tax purposes, resulting in deferred taxes.

1.9.13. Impairment of Assets

In accordance with adopted accounting policy, the Company's management checks at each date of balance sheet whether there are indicators of loss of property value. In the event that such indicators exist, the Company estimates the recoverable amount of assets.

The recoverable amount is determined as the higher of net selling price and value in use. The net selling price is the amount obtainable from the sale of assets in a transaction between two independent parties, reduce for selling expences, and value in use is the present value of estimated future cash flows that are expected to arise from the continuing use of the asset through its economic lifetime and sales at the end of its useful life. The recoverable amount is assessed for each separate asset or, if not possible, for the cash-generating unit to which the asset belongs. Where the carrying amount exceeds the estimated recoverable amount, the asset value is reduced to its recoverable amount. Impairment loss is recognized to the extent of the difference, as expenses in accordance with MRS 36 "Impairment of Assets".

Management of Company estimated that there are no indicators of loss of property value at 30.06.2014., so it was not done impairment of assets.

1.9.14. Supply

Supply of goods and materials are measured at cost value. Cost value consists of all costs of purchase of bringing the inventories to their present location and condition. The costs of purchase of inventories comprise the purchase price, import duties and other obligations (other than those which the Company may subsequently recoverable from tax authorities), and transport, handling charges, and other costs that are directly attributable to the acquisition. Discounts, rebates and other similar items are deducted in determining the costs of purchase. Cost of transport in the procurement are not included in cost alue of inventories, because of delay transport invoice and the inability of their allocation to particular types of supplies, and they are reported as an expense.

Output of materials and goods is recorded using method of average weighted price.

Inventories of work in process and finished goods are measured at cost price or net realizable value, if it is lower. The cost price includes all the costs of conversion and other costs incurred in bringing the necessary inventories to their present location and condition, that is:

-
- Cost of direct labor;
 - Cost of direct materials and
 - Indirect and general production costs.

The value of work in progress and finished goods are not included, but they are an expense during the period:

- An unusually large dispersion of materials, labor or other production costs;
- Storage costs, unless those costs are necessary in the production process before the next stage of production;
- Administrative overhead expenses that do not contribute to bringing inventories to their present location and condition, and
- Cost of sales.

Net selling value represents the estimated the sales value, reduce for selling cost and estimated costs of completion (for work in progress). If the net realizable value of work in progress and finished goods is lower than their cost, performed a partial write-down to net realizable value.

Charged to other expense shall be corrected supply in cases where it is estimated to reduce the carrying value of supply to their net realizable value. Damaged supply and inventory that does not meet the standards are written off in full.

Inventories of goods for resale are valued at the sale prices throughout the year. At the end of the accounting period their value is adjusted to cost by an apportionment of the cost and value added tax, calculated on an average basis, the value of supply hold at the end of the year and the cost of goods sold.

1.9.15. Financial instruments

Financial investments are financial assets during initial recognition measured at cost value which presents fair value of the consideration given for them. Transaction costs are included in the initial measurement of all financial assets.

For the purpose of measuring a financial asset after initial recognition, financial assets are classified as financial assets available for sale.

After initial recognition, the Company measures the financial assets available for sale at their fair values, without any deduction for transaction costs it may incur on sale or other disposal, and a gain or loss arising from a change in fair value of financial assets are recognized on the revaluation reserves .

1.9.16. Short term receivables

Short term receivables include receivables from customers - subsidiaries and other related parties and other customers at home and abroad and sold products and services.

Short-term investments include other short-term investments with a maturity or sales within one year from the date of commitment, or the balance sheet.

Short-term receivables are measured by the value of the original invoice. If the value of the invoice is stated in a foreign currency are converted to the reporting currency at the average exchange rate in effect on the date of the transaction. Changes in the exchange rate of the transaction date until the date of receivables are recorded as exchange rate differences in income or expenses. Receivables denominated in foreign currencies at the balance sheet date are translated at the middle exchange rate of current NBS, and exchange rate differences are recognized as income or as expenses in the period.

Short-term investments that are not held for trading are measured at amortized cost, without taking into account the intention of the company to hold them until maturity.

If it is probable that the Company will not be able to collect all amounts due (principal and interest) according to the contractual terms for loans, receivables or held-to-maturity are carried at amortized cost, loss or impairment due to unpaid debts.

Write-off of short-term receivables and investments for which there is a probability for inability to pay performed indirect write-off, while in cases where the inability to collect certain and documented, remission, in whole or in part, shall direct write-off.

1.9.17. Cash and cash equivalents

Cash and cash equivalents include cash in bank accounts, cash in cashier and highly liquid investments with original maturities of three months or less and that can be quickly convertible to known amounts of cash and with an insignificant risk of changes in value.

1.9.18. Provisions, potential liabilities and potential sources

Provisions are recognized when the Company has a legal or constructive obligation as a result of past events and it is probable that an outflow of resources to settle the obligation and when a reliable estimate of the amount.

Provisions for retirement benefits and jubilee awards are measured at the present value of expected future outflows using a discount rate that reflects the high-interest securities that are denominated in the currency in which the benefits will be paid.

1.9.19. Compensation of employees

1.9.19.1. Taxes and contributions for social insurance

In accordance with the regulations that apply to the Republic of Serbia, the Company is obliged to pay contributions to the state social security funds. These obligations include contributions paid by the employee and the employer in an amount computed by applying the statutory rate. The Company is also obligated to withhold contributions from gross wages, and on their behalf to transfer the withheld funds to the appropriate state funds. The Company is under no obligation to employees upon retirement pay fees that are the obligation of the pension fund of the Republic of Serbia. Contributions on behalf of the employee and the employer are charged to expenses in the period in which they arise.

1.9.19.2. Liabilities for retirement benefits and jubilee awards

In accordance with the Labor Law ("Official Gazette" No. 61/05) and the general act of the individual work, the Company is obligated to pay retirement benefits in an amount of 3 monthly gross earnings by the employee of the month preceding the month to the payment of severance pay, which is not to be less than 3 times the average gross salary paid by the Company in the month prior to the payment of severance pay.

In addition, the Company is obligated to pay jubilee awards in the amount of one half to one and a half the average monthly salary. Number of monthly salaries for jubilee awards is determined based on the number of years an employee has spent in the company.

Calculation and expression of long-term liabilities for retirement benefits and jubilee awards by the present value of expected future payments, based on actuarial calculation.

1.9.20. Income taxes

1.9.20.1. Current income

Income tax is the amount calculated in accordance with the provisions of the Income Tax Law. Income tax is calculated at the rate of 15 % on the tax base reported in the income tax, net of tax credits. The taxable base includes the profit shown in the profit and loss, as adjusted in accordance with the tax legislation of the Republic of Serbia.

Tax Law recognizes the company give a tax credit amounting to 20% of investments in intangible assets, property, plant and equipment in their own property within the territory of the Republic to perform the core activities and activities listed in the Articles of Association of the Company, provided that the tax credit may not exceed 33 % of the calculated tax in the year in which the investment was made . Unused tax credits can be offset against income taxes in future periods , up to 33 % of the calculated tax in that tax period , but not more than 10 years.

Since the Society 31 December 2012th year , entitled to a tax incentive under Art . 48a of the Law on Corporate Income Tax Law ("Official Gazette of RS " , no . 25/ 01, 80 /02 , 80/ 02 - dr . Law , 43/ 03, 84 /04 , 18/10 and 101 /11) and presented the information in the tax returns and tax return for year 2012. year , to be entitled to benefits until the expiration of the deadline and in the manner prescribed by the law , or the unused portion of the tax credit on that basis he recognizes no limits on the tax calculated for the next 10 years .

1.9.20.2. Deferred tax

Deferred income taxes are provided for temporary differences between the tax bases of assets and liabilities and their book values. Currently tax rate on the balance sheet date are used to determine the amount of deferred taxes. Deferred tax liabilities are recognized for all taxable temporary differences. Deferred tax assets are recognized for deductible temporary differences and the transferred effects of loss and unused tax credits from prior years to the extent that it is probable that there will be future taxable profits against which the deferred tax asset to be utilized.

Current and deferred taxes are recognized as income or expense and included in the net profit for the period.

1.9.21. Earnings per share

The Company calculates and discloses basic earnings per share. Basic earnings per share is calculated by sharing net profit attributable to shareholders of the Company to holders of ordinary shares by the weighted average number of ordinary shares outstanding during the period.

1.9.22. Distribution of dividends

Distribution of dividends to shareholders of the Company in the financial statements is recognized as a liability in the period in which the dividends are approved by shareholders of the Company.

If the dividend declared after the balance sheet date but before the financial statements are authorized for issue, the Company which is not the case, the dividends are not recognized as a liability at the balance sheet date, they do not meet the criteria of a present obligation in IAS 37 "Provisions, contingent Liabilities and contingent Assets". Such dividends are disclosed in the notes to the financial statements in accordance with MRS 1 "Presentation of Financial Statements".

1.9.23. Disclosure of related party

For the purposes of these financial statements, entities are treated as associated if one entity has the ability to control another entity or have a substantial impact on the financial and business operations of the entity, as defined in IAS 24 "Disclosures of related parties."

Relations between the Company and its related parties are regulated on a contractual basis and on market conditions. Condition of assets and liabilities at the balance sheet date, and transactions occurred during the reporting period with related parties are separately disclosed in the notes to the financial statements.

1.9.24. Financial risk management

The Company in its normal course of business to a different extent exposed to certain financial risks:

- Credit risk,
- Market risk (including currency risk Foreign currency risk, interest rate risk and price changes) and
- Liquidity risk.

Risk management in the Company is focused on minimizing the potential negative impact on the financial condition and operations of the unpredictability of financial markets.

Risk management is defined by the accounting policies.

1.9.25. Credit risk

Credit risk is the risk that one party in financial instrument failing to discharge an obligation, causing a financial loss on the other.

Credit risk arises from cash and cash equivalents, deposits with banks and financial institutions, accounts of legal entities and individuals and commitments.

1.9.26. Market risk

The risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: currency risk, interest rate risk and other price changes.

1.9.26.1. Risk of changes in foreign currency exchange rates

Currency risk is the risk of fluctuations in the fair value or future cash flows of a financial instrument due to changes in exchange rates.

Currency risk (or foreign exchange risk) arises on financial instruments that are denominated in foreign currency, that is in a currency other than the functional currency in which they are measured.

1.9.26.2. Risk of changes in interest rates

Risk of changes in interest rates is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

Interest rate risk arises on interest-bearing financial instruments recognized in the balance sheet (eg loans and receivables and debt instruments issued) and on some financial instruments not recognized in the balance sheet (eg. some loan commitments).

1.9.26.3. The risk of price changes

The risk of price changes is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from interest rate risk or currency risk), whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting all similar financial instruments traded in the market

The risk of price changes occurring in financial instruments because of changes in, for example, commodity prices or equity prices.

1.9.27. Liquidity risk

Liquidity risk is the risk that the company will not have difficulty in meeting obligations associated with financial liabilities.

1.11.3. Equity investments in capital

Equity investments in capital are long-term financial investments (ordinary or preference) shares and bonds of companies, banks and insurance companies.

Equity investments in capital are stated:

- according to purchase value method, in which the investor states its investment at cost. The investor recognizes income only to the extent in which it receives its share of the distribution of undistributed net investment income of the user, which occurs after the date on which the investor acquired. Part of the distribution which is received in an amount greater than such proceeds shall be deemed return on investment and is recorded as a reduction of cost of the investment.
- In accordance with IAS 39, as described in section 3 (1).

1.11.16. Acquired own shares

The decision to acquire its own shares or other securities issued shareholding company by the Board of Directors on 18.09.2012., decision no. 7237.

The Company will acquire its own shares on the regulated market - BSE in order to prevent disturbances in the securities market and prevent a greater and direct damage to the Company;

The Board of Directors believes that the Company's stock price at the moment does not reflect the fair value of the company, and there is a risk that due to non-economic causes and reasons that are not related to the operations there until the fall of the value of shares, and therefore the value of the company by the previous years, the incidences of positive results.

Responding to the potential fall of stock prices could cause damage to shareholders by creating too much supply at low prices, so that potential investors can be misleading to the action they intend to buy or possess without adequate market valuation.
